

*There are two kinds of Advertising*

That which the Buyer seeks, and that which is thrust upon him.

*Both are good*

*Display* advertising suggests wants and creates desire. Of its tremendous power many present day successes bear witness.

*Reference Advertising* steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy*.

*A Connecting Link*

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book*.

*A Help to You*

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

*Are You Covered?*

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected*.

### A Public Service Publication

Few lines of Business have such a varied clientele as has the City Directory. It serves high and low, rich and poor, with impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily business life and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

## This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledge himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**

The more *heat units* you get in coal,  
the less ash you shovel out of the

Cleercoal is better than 95 per cent.

A single ton will convince you that  
Cleercoal produces 20 to 30 per cent.

**Be  
Modern**

**use . . . . .**

**CLEERCOAL**

**I M P O R T E D**

**the modern anthracite**

The more *heat units* you get in coal,  
the less ash you shovel out of the  
heater.

Cleercoal is better than 95 per cent.  
**PURE.** It actually leaves less than  
a barrel of ash to the ton.

A single ton will convince you that  
Cleercoal produces 20 to 30 per cent.  
more heat per shovelful than any other  
anthracite.
